

February 2019

Dear prospective candidate

Katherine Warrington School is new comprehensive, co-educational and non-denominational academic secondary school opening in September 2019 with up to 180 Year 7 students. The school will add a further 180 students in each subsequent year and then open a 250 strong Sixth Form. By 2025, we will have grown to our capacity of 1150 students. The school is established through the partnership of the Harpenden Secondary Schools Trust which includes the three outstanding schools in Harpenden: Roundwood Park, St George's and Sir John Lawes and additional partners: the University of Hertfordshire and Rothamsted Research Centre (a world leading non-profit agricultural science research centre). Further details about the school, including our prospectus, can be found on our website: www.kwschool.co.uk.

We are looking to employ the most able, dynamic and enthusiastic staff for our school. In the early stages of the school, the ability to multi-task will be essential so a positive, 'can do' attitude is vitally important. We have appointed several experienced senior teaching staff to lead our core subjects and guide other teaching recruits through their early career. This is an exceptionally rare opportunity to develop your craft as the school grows each year and embrace fast track career responsibilities in line with your ambition.

I am very excited about the opportunities our new school will present, both for our students and staff, and I look forward to hearing about what you can bring to our school.

Kind regards
